

# LIESL CODRINGTON

18+ YEARS EXPERIENCE

85+ PROJECT INVOLVEMENTS

MASTER OF ENVIRONMENTAL PLANNING

BACHELOR OF ARTS (HUMAN GEOGRAPHY)

MIAP2, MEIANZ

As a Sustainability Strategy, Policy and Research Consultant, Liesl offers over a decade of senior level experience working with State and Federal Governments, NGOs and private companies to advance sustainable development principles. She brings a wealth of experience in a diverse range of areas including renewable energy, climate change, water policy, urban and social planning, infrastructure development and community engagement.

Intrinsically people- oriented, Liesl’s core value rests on an ability to utilise a warm approach and palpable commitment to sustainability to secure consensus across diverse stakeholder groups, pulling people together in the pursuit of goals. This positivity and authenticity of character, combined with a keenly analytical mind that enables the recognition and assessment of multiple perspectives in the definition of strategic definition vision, has been the foundation of her success to date.

*curious, engaged, considered*
